Senior member of the ExxonMobil Logistics Network based out of Houston, USA for about 15 years; worked in development of ExxonMobil Supply Base Best Practices Manual. In addition, Chairman of West Africa Logistics Network covering: Angola, Nigeria, Chad, Cameroon and Equatorial Guinea.

BALASUNDRA RAJOO
LOGISTICS CONSULTANT

Presented a paper on Angola Deepwater Logistics focusing on Supply Base development for greenfield supporting drilling, projects and production operations at the Offshore Technology Conference in Houston in June 2006. Presented OTC paper details the challenges of constructing and mobilizing the shorebase and highlights the best practices employed in an area of Soyo, Angola ravaged by 27 years of civil war. It was an assignment challenged with providing the entire spectrum of technical, logistical, and engineering services required for logistics support (shorebase, marine, aviation and catering and janitorial, waste management) of deepwater offshore operations while establishing a world-class shorebase.

Authored and published 24/7 Safety Book which shares insights how to operate safely integrating safety culture leadership development with outstanding execution. It outlines to stay safe, you need to learn and grow to design, nurture and activate a culture of safety leadership with the workforce. Gave safety talks via safety workshops & seminars to offer real life experiences and insights on how to communicate, speak, interact, listen, lead, recognize and influence the "hearts and minds", of your workforce. It contents charts the path to "show and nurture the real you even when no one is watching you."
